CERTIFICATION OF ANALYSIS

Product Code: [33810-R8](#)

Product Description: Red Litmus 8x10" Sheet

Application: Alkaline Detection Paper

The materials used to produce these paper are impregnated with solutions of acid/base indicators. There are no established health hazards, and the papers are stable if stored properly (protect from sunlight and excessive heat until use).

The papers are tested using certified buffer solutions.

For precision, master samples are pulled and checked for positive and consistent reaction to Alkaline buffers.
