

TECNICAL DATA SHEET ECOCORK-A

REF. 1204

GENERAL INFORMATION

Description

Disinfection product, with slight bleaching, used in the washing of all types of cork stoppers.

Composition

Mixture in equilibrium of organic peroxides.

Presentation

- Drums of 25 L
- Drums of 200 L
- Containers of 1000 L

Manipulation

For the manipulation of ECOCORK-A it is recommended to wear rubber gloves and goggles.

Conservation

- 10 months from the date of manufacture.
- The drums should be sealed after each use.
- Keep in a cool and ventilated place.

TECHNICAL CHARACTERISTICS

Appearance Transparent liquid
Odor Acetic acid, spicy odor
Solubility in water Total
pH 1 - 3

Flash point..... > 74°C
Auto-ignition temperature > 270°C
Boiling point Decomposes
Density (g / cm 3, 20 ° C) 1.00 - 1.10

SAFETY

See ECOCORK-A Safety Data Sheet.

MODE OF APPLICATION

Process

- i** I. I. Apply the product to the stoppers, preferably by pulverization to obtain a good penetration into the cavities of the stopper.
- II. II. When the product is completely distributed, the corks are dried.

The dosages to be used will depend on the volume and type of stoppers. The recommended doses are as follows:

Doses

- i** Natural 44x24 (20,000 corks, upper classes): 6-7 liters
- Natural 44x24 (20,000 corks, low classes): 7 - 8 liters
- Colmated 44x24 (20,000 corks): 6-7 liters
- Micro / Agglomerates 44x24 (20,000 stoppers): 6-7 liters

** For different measures and/ or quantities, the doses should be recalculated.*

REGULATION

i Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food.

· Commission Regulation (EC) No 10/2011 of 14 January 2011 on materials and articles intended to come into contact with food by Regulation (EC) No 975/2009 and repealing Directives 2004/19 / EC , 2005/79 / EC and 2008/39 / EC and which constitutes a specific measure within the meaning of Article 5 (1) and Directives 80/590 / EEC and 89/109 / EEC are hereby repealed.

· Commission Regulation 2015/174 of 5 February 2015 amending and correcting Regulation (EU) No 10/2011 on plastic materials and articles intended to come into contact with food.

· Commission Regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practices for materials and articles intended to come into contact with food.

· Commission Directive 2007/19 / EC of 2 April 2007 amending Directive 2002/72 / EC on plastic materials and articles intended to come into contact with foodstuffs and Council Directive 85/572 / EEC , whereby the list of simulators to be used to control the migration of the components of materials and articles of plastic material intended to come into contact with food products is determined.

· All components present in ECOCORK-A comply with the requirements published in the CFR, Title 21, Part 175, Subpart C of the FDA.

· Council of Europe Resolution AP (2004) 2 on cork stoppers and other cork materials and articles intended to come into contact with foodstuffs.

· PROMACOR, S.A. certifies that the raw materials used in the formulation of ACUACORK-A products do not contain:

Allergens
Genetically Modified Organisms (GMOs)
Biocides
Phthalates
Bisphenol-A
Halogens

PROMACOR, S.A. guarantees the quality of its products, but can not be responsible for their correct application. This responsibility corresponds to who makes the registration.
