

Artwork Submission Guidelines

When sending your artwork by email, Please Do not compress your files with WinZip or Stuffit.

We operate in a Mac & PC environment. Please submit your artwork in "Vector" format created in the programs listed below. Vector is the best type of art to use in our application of printing.

Save your electronic artwork in Adobe Illustrator CS6 or earlier version with a .eps, pdf or ai extension. Corel Draw13 or earlier version, saved with the extension .cdr - Please note, all fonts/text must be converted to "Create Outlines" - for Illustrator and "Convert to Curves" for Corel Draw.

All art must be on one layer and not locked or linked. Do not embed bitmaps such as - jpg, tiff, bmp in any of these file formats as they will not work with our printing process.

*Technical drawings created in AutoCAD can sometimes be used but there are limitations and we can't guarantee results. Most times files can be translated without conflict.

File formats we don't accept - jpg, jpeg, tif, tiff, bmp, Microsoft Word, Publisher, Power Point.
